PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of production experience at Alternative Airlines, following an intensive front-end bootcamp and freelance client work that included direct engagement with national UK retailer Superdrug. Owns a highly customized DotDigital codebase, led the build-out of multi-language (i18n) support using Localize, assisted in migration of Alternative Airlines' legacy PHP platform to Next.js, keeping the resulting stack current and secure. Works daily in Next.js (React/TSX) with TypeScript and Tailwind CSS, full-stack capable across Node.js, PostgreSQL/Prisma, and REST APIs, with hands-on ownership of an independent SaaS platform, Combines senior-level engineering ownership with a background in direct client delivery and business ownership from prior freelance and entrepreneurial work.

TECHNICAL SKILLS

- Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, Sass/SCSS, Python
- Frameworks & Libraries: Next.js, React.js, Tailwind CSS, CSS Modules, jQuery, NextAuth.js (Auth.js)
- Backend & APIs: Node.js, Express, REST APIs, Postman, Prisma ORM
- Databases: PostgreSQL, MySQL (Sequel Ace), Firebase, Supabase
- Platforms & Integrations: DotDigital, Localize, Sanity.io, Prismic, Stripe, Backblaze
- Design & Prototyping: Figma, Photoshop, Inkscape, Krita, Aesprite
- Tools & Environment: Vercel, Git/GitHub, Cloudflare, Resend, Docker, DigitalOcean, Command Line, VS Code
- AI-Assisted Development: Claude Code, Cursor, Codex, Ollama, using Context and Loop Engineering

PROFESSIONAL EXPERIENCE

Frontend Engineer 24 July 2023 - Present

Alternative Airlines - Remote

- Own and maintain a highly customized DotDigital implementation, generating £74,781 in tracked booking value from 589 completed bookings in a single reporting period in 2026.
- Drove a 94% year-on-year increase in June transactions against a 230% rise in sessions, with June alone contributing £21,049.83 in booking value across 153 bookings.
- Led the build-out of multi-language (i18n) support using Localize, extending the platform to serve Alternative Airlines' growing international user base.
- Assisted in full migration of Alternative Airlines' legacy PHP codebase to Next.js, using Docker to manage the transition environment, and continue to keep the Next.js stack and dependencies current and secure.
- Deliver senior-level frontend initiatives using Next.js, TypeScript, and Tailwind as part of a 7-person frontend engineering team, recognized as a focused, experienced, high-ownership contributor.

Freelance Web Developer 2021 - 2023

PixelPulseLabs - Winchester, Hampshire, UK

Client Project: Superdrug - Edit Magazine Competition Platform

- Contacted directly by Superdrug's marketing team, a major UK high-street retailer, to design and build a competition platform tied to their quarterly magazine releases with ongoing maintenance retainer.
- Delivered UX/UI design via a 5-page Figma wireframe, then built a scalable React.js and Tailwind CSS application with a custom component and hooks library, dynamic API-driven forms, applying accessible, semantic, mobile first practices for fully responsive/pixel-perfect deployment.
- Built WiFinder, a collaborative Wi-Fi and hangout search engine integrating the Google Places and Geoapify APIs

Founder & CEO 2007 - 2019

Glitch Music Workshops - Winchester, Hampshire, UK

- Built a music technology workshop business from concept to 60+ clients and 275+ delivered projects; headhunted by a client for a full-time role based on delivery quality, attained over £50,000 in turnover annually.

INDEPENDENT PROJECTS

Muse & Manor, Print-on-Demand SaaS Platform Ongoing

- Building a full-stack, owner-controlled SaaS platform that goes beyond standard print-on-demand tooling, pairing a fully custom admin backend with a polished, customer-facing storefront
- Built a custom image optimization pipeline for print-ready assets, with production file handling to a Backblaze B2 bucket
- Built with Next.js, TypeScript, Prisma and PostgreSQL, NextAuth.js (Auth.js) for authentication, and Stripe for payments

EDUCATION

- Front End Web Development Bootcamp - EdX | 2022–2023 (Grade: A+)
- Higher National Diploma, Music Technology - ACM Guildford | 1999–2001
